ABOUT YOUR PHONE

The SUPERSET 4015 has eight fixed-function keys (SUPERKEY, MESSAGE, HOLD, CANCEL, TRANSFER/CONFERENCE, REDIAL, ▲ and ▼) and seven personal keys with built-in status indicators. The personal key on the bottom left is always your Prime Line; the remaining personal keys can be programmed as:

- Feature keys (for example, Swap). You can program feature keys from your phone. Your administrator can also program feature keys.
- Speed Call keys. You can program speed call keys from your phone.
- Line Appearances. Only the administrator can program line appearances.

Your telephone also features display-assisted selection of features, on-hook dialing, and a large Message Indicator.

Note: When using the SUPERKEY, press Cancel to back up one menu level.

IMPORTANT NOTE FOR HEADSET USERS:

Headsets with a feature control switch a must be installed in the dedicated headset jack (the jack nearest the front of the set). Installation will disable your handset microphone. Disconnecting the headset at the jack or at the quick-disconnect plug restores handset operation.

TIPS FOR YOUR COMFORT AND SAFETY

Don’t cradle the handset!

Prolonged use of the handset can lead to neck, shoulder, or back discomfort, especially if you cradle the handset between your ear and shoulder. If you use your phone a lot, you may find it more comfortable to use a headset. See the section on headset usage elsewhere in this guide for more information.

Protect your hearing

Your phone has a control for adjusting the volume of the handset receiver or headset. Because continuous exposure to loud sounds can contribute to hearing loss, keep the volume at a moderate level.

Adjusting the viewing angle

The stand built into your phone tilts to give you a better view of the keys to tilt your telephone for better viewing!

1. Press the tilt-release paddle on the telephone base
2. Tilt your telephone to the desired angle
3. Release the tilt-release paddle
Changing Handsets

Your SUPERSET 4015 telephone is compatible with several specialty handsets. To remove the handset shipped with your set from the handset cord:

1. Bend a paper clip to produce approximately 4 cm (1.5 in.) of straight wire.
2. On the handset, locate the plastic groove leading into the handset jack. The groove is on the side of the jack that is closest to the handset microphone.
3. Slide the end of the wire into the handset jack along the groove until it stops underneath the handset cord clip.
4. While gently pulling on the handset cord, use the wire to pry the clip upward. The cord will separate from the handset.
5. Store the original handset in a safe place.

Call Forward - Forced

To force an incoming call to be forwarded:
- Press the **Forward Call** feature key.

To immediately transfer to another extension's No Answer forwarding destination when making a call:
- Press the **Forward Call** feature key when it lights.

Call Forward - Toggle

This feature is useful if you want call forwarding in effect for Busy and No Answer conditions most of the time, but need to override it with Call Forward Always occasionally—for example, when you're using a second phone such as a SUPERSET 4090 cordless phone. Instead of changing the call forward programming on your main phone to turn Call Forward Always on and off, you can program a key to do it.

You can also program keys to turn Call Forward Busy, No Answer or Busy/No Answer on and off.

To toggle call forward:
- Press the programmed feature key: **Forward Always, Forward Busy, Forward No Ans**, or **Forward Busy/NA**.
  For information on programming a feature key, see "Feature Keys" elsewhere in this guide.

**Note:** You may also program a **Forward All** key to enable and disable all call forward types that have a destination programmed.
Messaging - Advisory

To turn Messaging - Advisory on:
1. Press **SUPERKEY**.
2. Press *.
3. Press # until the desired message appears.
4. Press *.

To turn Messaging - Advisory off:
1. Press **SUPERKEY**.
2. Press *.
3. Press *.

Messaging - Callback

To leave a Callback Message on a telephone when you hear busy or ringback tone:
- Press **MESSAGE**.

To respond to a Message Waiting condition on your telephone:
1. Lift the handset.
2. Press **MESSAGE**.
3. Dial 3.

A call is placed to the message sender (voice mail system or extension user) that left the oldest message.

To view information about the messages before responding:
1. Press **MESSAGE**.
2. Do one of the following.
   - To call the message sender, press #.
   - To erase the message, press *.
   - To view the next message, press **Message**.
USING ADVANCED FEATURES

Account Codes

To enter an Account Code at the start of a call:
1. Press the Account Code feature key.
2. Enter the account code.
3. Press #.
4. Dial the telephone number.

Callback

To request a Callback when you reach a busy or unanswered telephone:

- Press the Callback feature key.

To answer a Callback:

- Lift the handset.
Call Park

To park a call that is on your prime line (Line 1 key):

- Press the **Call Park** feature key.
  - OR-
  - Press **TRANS/CONF** and then dial **33**.

The call is parked and you receive dial tone on your prime line.

To retrieve a parked call from your phone while your phone is idle, or while you are off-hook and hearing dial tone:

- Press the **Call Park** feature key.
  - OR-
  - Dial **22**.

To retrieve a parked call while you are on a call on your prime line:

- Press the **Call Park** feature key.
  - OR-
  - Press **TRANS/CONF** and then dial **22**.

You are connected to the parked call and the caller that was on your prime line is parked.

To retrieve a parked call from another phone:

1. Lift the handset.
2. Dial **23**.
3. Dial the prime line number (extension number) of the phone that parked the call.

**Note:** If the phone has both a parked call and a call on hold, dialing the Remote Hold Retrieve access code will retrieve the parked call.
Call Park - System

This feature allows you to park a call from any line on your telephone not just the prime line. The number of calls you can park is limited only by the number available system park "orbits."

To park a call in system orbit:
1. Press the lit System Park feature key.
2. Do either of the following:
   - Hang up.
   - Press a line key to answer a call, retrieve a call or hold, or get dial tone.

To return to the caller if all the system orbits are busy:
- Press CANCEL to return to the caller.

To retrieve a call parked on a system orbit from any extension:
- While listening to dial tone, dial 57 followed by the park orbit number.
Call Park - Specific Orbit

This feature allows you to park a call in a specific orbit by entering a two-digit orbit number or by pressing a feature key assigned to a specific orbit number.

To park a call in a specific orbit:
1. Press the System Park feature key.
2. Enter a two-digit Orbit Number (01-25).
   If the selected orbit already has a parked call, press CANCEL to return to the caller, and then repeat steps 1 and 2 but select a different orbit.

To retrieve a call parked in a specific orbit:
• While listening to dial tone, dial 57 followed by the park orbit number.

To park a call in a specific orbit using an Orbit # feature key:
• Press a free (unlit) Orbit # feature key. (See "Feature Key" for instructions on programming a feature key.)

Once a call is parked, you can press the same Orbit # to initiate a page.

To retrieve a call parked using an Orbit # feature key:
• Press the flashing Orbit # feature key.

Call Pickup

To answer a call that is ringing at another station in your Pickup Group:
1. Lift the handset.
2. Press the Pickup feature key.

To answer a call that is ringing at a station not in your Pickup Group:
1. Lift the handset.
2. Dial 09.
3. Dial the number of the ringing station.
Call Park - Destination Phone

Call Park - Destination Phone allows you to park an answered call on another phone. If a parked call is not retrieved after a specified length of time, a reminder occurs.

To park an active call on another phone:
1. Press TRANS/CONF to get dial tone.
2. Dial 62, and then dial the extension of the destination phone.
   If the call is parked successfully, dial tone, busy tone or a page occurs. If the call is not parked, reorder tone occurs.

To retrieve a call parked on another phone:
- Do one of the following:
  - Press the flashing Call Park feature key.
  - Dial 22.

Campon

To campon to a busy station:
- Press the Campon feature key.

To retrieve a call when you hear Campon tone:
- Press the Swap/Trade feature key.

Do Not Disturb

To activate and deactivate Do Not Disturb:
- Press the Do Not Disturb feature key. The key flashes to indicate that Do Not Disturb is active.

Override (Intrude)

To use Override when you encounter busy or DND tone:
- Press the Intrude feature key.
**Paging - PA**

*To use Paging:*
1. Lift the handset.
2. Do one of the following:
   - To page the default zone, press the **PA Page** feature key.
   - To page a specific zone, dial **13** followed by the zone number (0-9).
3. Make the announcement.

**Paging - Direct**

*To page an extension that has Whisper Announce or Off-Hook Voice Announce enabled:*
1. Lift the handset.
2. Press the **Direct Page** feature key.
3. Dial the extension number.
4. Page the called party.

*To answer a Direct Page:*
- Lift the handset.

**Paging - All Set**

*To page all telephones simultaneously through their speakers:*
1. Lift the handset.
2. Press the **Direct Page** feature key.
3. Press *.
4. Page the called party.

*To answer an All Set Page:*
1. Lift the handset.
2. Dial **49**.
Paging - Group

To page all telephones in a paging group simultaneously through their speakers:

Phonebook

To access the Phonebook:

1. Press the Phonebook softkey or dial 65.
2. Using the keypad, enter the name or extension of the person you wish to call.

Note: Only extensions that have a voice mailbox can be dialed using Phonebook.
Call Monitoring

This feature allows you to monitor another extension user's phone conversation, either with or without the user's knowledge.

If your system is programmed to notify users that they are being monitored, they hear a beep when monitoring begins. Users that have a display telephone also see your name and extension number in the display for the duration of the call.

When monitoring a call, you can listen to the conversation but you can't speak to either party, and they can't hear you. However, you can join the conversation by forming a three-party conference.

A few conditions:

- The system may be programmed to disallow monitoring of any or all extensions.
- A user can only be monitored from one extension at a time. If you try to monitor someone who is already being monitored, you receive busy tone and BUSY appears in your display.
- If the user puts the caller on hold, transfers the call, or ends the call, you are disconnected and your monitoring session ends. Note that the system can be programmed to allow monitoring to continue while the call is on hold.
- While you are monitoring, you can't make or receive calls. Anyone who calls your telephone while you are monitoring receives busy tone. The caller can leave a callback, but is unable to camp on or override your monitoring session. If you want to place an outgoing call, you must first cancel your monitoring session.
To monitor a call:

1. Lift the handset.
2. Dial 45 followed by the number of the extension you wish to monitor.
   If the user is on a call, INTRUDING followed by the user’s extension number appears in your telephone display.
   If the user is not on the phone, you hear busy tone and the user’s extension number followed by the words IS IDLE are shown in your telephone display.
3. Press Trans/Conf to form a three-party conference with the user and the other party.
   -OR-
   Press Exit to end the monitoring session.

**NOTE:** If you wish to continue monitoring after exiting the conference, you must set up the monitor again.

Door Opener

Door Opener allows you to operate a third-party door opener. For example, when someone requires entry into a third-party building, a designated extension (or extensions) rings and on answering, the extension user can press a feature key or dial a feature access code to open the door.

To use Door Opener:

- Press Door Opener or press 66.
