

SHOW UP FOR SCHOOL

Tips for Parents & Family Members

IMMUNIZATIONS

California law requires all students (TK-12) attending public or private school be vaccinated

Students in TK-K and 7th grade must provide updated records showing vaccinations against certain infectious diseases to keep themselves, their families and their classmates safe. The school must have a copy of each student's vaccination record on file.

1

The **Immunization Requirement** has not been waived by the State of California.

2

Contact your health care provider and **make an appointment** to get your immunizations now.

3

Plan ahead. Health care providers will not be able to handle a rush of families coming in for immunizations when reopenings may be announced.

4

Waiting too long could result in a **delay in your student's ability to return to school.**
